USE TIMBER – THE MOST ENVIRONMENTALLY
FRIENDLY BUILDING PRODUCT ON THE PLANET

Every way you look at it, new InStyle Cladding is your best choice.

Now and then, a timber product comes along which redefines the marketplace. Bayswood Timber are delighted to announce new InStyle Cladding as exactly one of those opportunities.

This gorgeous new product is beautiful, durable, environmentally friendly and easily worked. And it answers a huge variety of needs for a wide range of customers.

Affordable, cost efficient, and it looks simply great. What's not to like?

Is InStyle Cladding right for you?

Distributed via Australia's leading timber suppliers, InStyle Cladding will appeal to anyone who appreciates magnificent timber – architects and designers, of course, and anyone building with timber and anyone who want the best timber cladding available for their home or business.

If you want to offer Australia's highest quality cladding product at a price which will appeal and that is always delivered promptly and efficiently, then InStyle Cladding is for you.

Superb visual appeal.

InStyle Cladding can be created from a vast range of base species, with reliable supply. Just specify the species that appeals to you most for its workability or appearance.

Choose from:

- Western Red Cedar
- Tasmanian and Victorian Hardwoods
- Spotted Gum
- Blackbutt
- Ironbark
- Silvertop Ash

Ease of manufacture.

If you can explain it, we can make it! We have the custom machining technology to create your cladding requirements in a virtually unlimited series of profiles, backed by over 30 years experience and unmatched speed and reliability of service.

Shiplap cladding profiles

Pre-Coated? Not a problem.

We can supply InStyle Cladding in a huge range of pre-coated styles, multiplying your appearance options and reducing your on-site production time and cost. Just tell us what you need.
